-ksh-4.1$ 
```

2) Screen shot of the denial message from k200 server while trying to insert new module into the kernel.

```
-ksh-4.1$ sudo insmod djk93533.ko
[sudo] password for djk93533:
djk93533 is not in the sudoers file.  This incident will be reported.
-ksh-4.1$ 
```
